

# Moment of the Month May 2017

For the second year, POC in collaboration with the University of Illinois Extensions/4-H, brought baby chicks to the center, what a moment! All ages waited in anticipation for the arrival of the babies. Preschoolers read each day to them and Harper students joined in the fun of naming each egg!

We celebrated the birth of the 17 baby chicks by inviting Dr. Cates, Superintendent of Township District School 211, to read books about chicks to excited preschool students. Dr. Cates took the time out of his busy day to enjoy the fun, practice his Spanish, and spend time with the children.

The baby chicks made an appearance at the Cinco de Mayo fundraiser this year before being brought back to Illinois Extensions by our loving preschoolers!

*“From small beginnings come great things”*

This experience was made possible by the University of Illinois Extensions and Township School District 211!

Thank you for your support!
