

Volunteering

empowering ALL people

Partners for Our Communities is substantially supported by grant funding. With the additional donations by community members and numerous volunteers, POC proudly provides quality programming to thousands of clients each year. With a moderate operating budget, all offers of assistance are appreciated.

Donations

On a very small operating budget and very few paid staff, POC provides education and healthcare services to thousands of area residents per year. The need for expanded programs and services has been recognized, however, without additional funding, POC is not able to provide additional services. Your generous donations will allow POC to serve more people and make it possible to help people help themselves. To donate online, click [here](#).

Equipment

POC appreciates donations of gently used books, toys, games & computer equipment. POC is currently looking for a display case to showcase a rotation of cultural art.

Volunteer

We are very fortunate to have volunteers from every walk of life: retired teachers & business persons, community leaders, high school and college students. Every one of our volunteers offers a unique perspective and connection to our clients. In return volunteers are provided with the rewarding experiences of helping someone improve not only their own life, but that of their children and children's children.

If you feel you can assist POC in any way, [please email us](#) or

fill out the form below. We would love to hear from you.
