

## **BILINGUAL LIAISONS VISIT ZURICH INSURANCE**

Thank you to Teresa Logue, POC Board of Directors' member and Zurich staff, for inviting our amazing Bilingual Parent Liaisons to tour the new Zurich building in Schaumburg and participate in an inspirational morning of leadership development. The Liaisons and women of ROLE (Reaching Out Lifting to Excellence), our women's leadership development program, look forward to more opportunities for leadership in 2019 at Zurich!

The Bilingual Parent Liaison program is a collaborative effort between POC and CCSD15, representing the frontline of our outreach efforts to our target clientele. The Liaisons increase the involvement of English language learning Hispanic parents and students in District 15 schools through a variety of programming. The program's goal is to foster effective communication between homes and schools for families of students in grades Pre-school through Eighth grade. The impact of early and consistent intervention for families with communication barriers can be seen in learners' performance in high school and beyond. All of the Bilingual Parent Liaisons receive leadership training through ROLE.
